

# Creating Value

## Limits do not exist in the real sense.

With our passion for continuously pushing boundaries, we are reaching incredible heights. At this height sits the safest, most valuable and the biggest industrial plant in Africa, an outstanding achievement run by a 100% Nigerian Senior Management Team and 95% Nigerian workforce.

At Nigeria LNG, Excellence is one of our core

values and a way of life. It drives all that we do, from enhancing capacity and potential for Nigerian youths to managing top-notch intricate engineering, helping to change the narrative and the socio-economic landscape of our beloved country.

For over 20 years Nigeria LNG has pioneered the monetization of gas resources, efficiently running its operations to deliver results that improve Nigerian lives and return value to its shareholders.

...helping to build a better Nigeria
